## **DETAILED ACTION**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on 12/17/1999. It is noted, however, that applicant has not filed a certified copy of the Japan application as required by 35 U.S.C. 119(b).

### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "parasitic capacitance" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Allowable Subject Matter***

3. Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record failed to show or teach an illumination device as specifically cited in claim 1. Claim 1 recites in part "...a light guide plate, three or more light sources at at least one of side ends of the light guide plate, and a light reflection member surrounding said light sources,....., wherein said light sources are provided so as to have the

same parasitic capacitance caused by intervals between said light sources and said reflection member." The illumination device structure as defined in claim 1 was not found in the prior.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
